

## WHEN YOU NEED TO MAKE THE MOST OF YOUR SPACE

### TOTAL ACCESSIBILITY IS WITHIN GRASP

The IN-SESSION room scheduler makes it easy to effectively manage the occupancy of boardrooms, conference rooms, lecture halls, auditoriums, classrooms and any other meeting place. With IN-SESSION, users can make instant reservations and extend or cancel existing meetings directly from the touch panel increasing meeting room efficiency. IN-SESSION also has a unique side LED indicator so people can easily determine from a distance if a room is occupied or available. This intuitive room scheduler requires no programming so set up is quick and easy.

### INSTANT RESERVATIONS

Make immediate room reservations from the touch panel, your computer or a mobile device. Other options such as extending or canceling a meeting ensure space is used to maximum ability.

### REAL-TIME STATUS

Touch panel shows current status of the room, reservation calendar and more.

### MULTILINGUAL

User-friendly interface available in English, Spanish, French, German, Czech, Finnish, Latvian, Russian and Danish.

### LED INDICATORS

Know the status of a room at a glance based on the red or green indicator lights on the side of the touch panel.

### COMPATIBLE

Compatible with Outlook, Microsoft Office 365, Microsoft Exchange Server or G Suite (Google Apps for Work).

### EASY SETUP

No programming required so set up is quick and easy.

### INTUITIVE USER INTERFACE

- ◆ Room name displayed
- ◆ Room occupation or availability indication
- ◆ Current meeting displayed
- ◆ Meeting details available
- ◆ Room calendar browsing
- ◆ Current meeting extension and termination

Available in 7" or 12" versions for on-wall surface mounting or in-wall box mounting.
