Replace that bulky keyboard, monitor, and mouse with one neat, rackmountable ServView.

FEATURES

- 17" Samsung™ TFT LCD Screen.
- Resolutions up to 1280 x 1024.
- Full numerical keypad.
- Optional 8/16 port USB/PS2 switch.
- High build quality.

OVERVIEW

The new enhanced Black Box ServView 17S KVM Drawer enables you to manager servers or KVM devices in the data centre at a very cost effective price. It now ships with a full 17 key numerical keyboard and a USB/PS2 combo cable for connection to your computer or KVM switch. You can also choose to include an integrated 8 port or 16 port KVM switch complete with (8) 1.8m PS2/USB combo cables (If you are ordering a 16-port version make sure you order (8) more cables), meaning connectivity in multi-platform environments couldn't be easier.

Why pay more for a KVM drawer in a data centre which is only used for occasional or emergency access when you can have all the features you need at a great low price from Black Box?

The Black Box ServView17S offers the most cost effective solution to locally manage servers and KVM products within a Data Centre. This new KVM drawer is 1U high and fits perfectly into most 19" cabinets by way of its adjustable rackmount kit. It will adjust for mounting into cabinets from 650mm to 800mm depth and is supplied with all the rails required. It now ships with a full 17 key numerical keyboard and a USB/PS2 combo cable for connection to your computer or KVM switch. You can also choose to include an integrated 8 port or 16 port KVM switch complete with (8) 1.8m PS2/USB combo cables (If you are ordering a 16-port version make sure you order (8) more cables), meaning connectivity in multi-platform environments couldn't be easier.

The unit is supplied with a trackball mouse as standard for accurate mouse movement but a touch pad version can be provided on request. The screen is a 17" TFT LCD which has adjustments for brightness, colour, contrast auto configure, H and V position and comes with an on screen display for all settings. The TFT LCD panel itself has a native resolution of 1280 x 1024 and supports 16.2 million colours. It also has a contrast ratio of 500:1 and a brightness of 300cd/m2.

The ServView 17S is built to a high specification using high quality parts mounted in a robust steel casing. It has an internal auto sensing power Supply with an IEC320 inlet, and will accept voltages from100V-240 A.C.

TECH SPECS
