VoIP Tool Kit

Specialty tools for voice applications in one handy kit.

FEATURES

- Comes with staple gun and crown staples for fastening low-voltage wiring.
- Can wrench/stripper has ⅜" and ⁷⁄₁₆" hex sockets for accessing panels, and strips PVC insulation and jackets from ²²⁄₄ and ²⁴⁄₄ telephone cable.
- The soft tote bag has 14 pockets and a tray for organizing connectors, ties, and other small items.
- Crimping tool works with 6-position RJ-11/RJ-12 connectors and 8-position RJ-45 connectors on 28–24 AWG phone and data cable.
- Multipurpose cable stripper has a thumbscrew-adjustable blade for use with various types of cable, including 4-, 6-, and 8-conductor flat satin cables, 25-pair data and phone cables, and 4-, 6-, and 8-conductor twisted-pair cables.
- 6-way adapter for connecting telephone test sets and equipment to data and phone lines.
- Pen-size pocket probe and pick pulls wires and enables easy removal of debris from telephone blocks and terminal panels.
- Punchdown tool features spring-compression impact for cutting and terminating wire, and reversible Type 110/66 blades that twist and lock into place.

WHAT'S INCLUDED

- ✦ Cable splicer kit
- ✦ Knife for skinning, stripping, and splicing
- ✦ Electrician's scissors, nickel-plated, 5"L
- ✦ Leather sheath for skinning knife and scissors

Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognize any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p. m. and you need help, but your vendor's tech support line is closed.

According to a survey by Data Communications magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
