ServView DVI

- 19" rack mountable KVM tray with 17" display, keyboard and touchpad.
- Premium quality ensures long life circle.
- VGA and DVI interface reduce TCO.
- Third mouse button emulation (Unix copy/paste)
- 17" display keeps it's position through high quality hinges and ensures relaxed ergonomics.
- Easy accessible front USB bus for memory sticks, etc.
- Flexible KVM-Switch expansion through rear adapter plate.
- Fast Installation with pre-mounted telescope rails from 600 to 900 mm depth.
- Multiple international keyboard designs.
- Interlock prevents from accidental slide-in.
- Shapely design ideal for representative purposes.

ServView DVI amends our ServView series without compromise. It combines an ergonomic layout in a shapely design with state-of-the-art technology. Manufacturing techniques and components are construed for high availability and a long life circle.

The high quality 17" LCD-panel supports both DVI and VGA video signals. Ergonomics ensure that even harshest use has no impact on cables due to bends or tiredness.

USB Connectivity

Unique is the feed-through USB-bus at the front. As a perfect add-on for modern KVM Switches with Virtual Media or true USB-Switching, it allows fast and convenient patch up-dates of the attached servers from memory sticks, etc.

Modular Design and Installation.

The adapter plate at the rear side accepts a variety of KVM-Switches without any additional need of rack space. The keyboards in multiple designs are fast exchangeable and the touchpad features a special design for rack usage that prevents from accidental use with the heel of hand. In addition an adjustable cantilever beam ensures proper cable ducting.

For fast installation, telescope rails are already pre-mounted. All fixing material including cables are delivered with the tray in a stable shipping box.

Design

Tender rounded edges and a console area without screws complete the premium effect. It's a pity to hide this KVM Tray in a rack. Use it on exhibitions and for other representative purposes and high-light your tomorrows' s alignment.

TECH SPECS

Display — 17" TFT-display
Resolution — Up to 1280 x 1024
Colours — 16,7 Mill. (True Colour)
Brightness — Typ. 300 cd/cm2
Contrast — 500 : 1
19" Rack mount Heights — 1U
19" Rack mount Depths — 600 to 900mm
through integrated telescope rails

Connectors —

- (1) DVI-I (Video);
- (1) HD15 Female (Video);
- (1) Schuko (power);
- (1) USB Type B Female (feed-through front)
- (1) USB Type A Female front (USB connectivity)
- (2) 6-pin Mini DIN Female (K/M);
- (1) USB Type B Female (K/M)

Power — 100 to 240VAC, 50 to 60 Hz,
internal power supply

INCLUDED IN DELIVERY

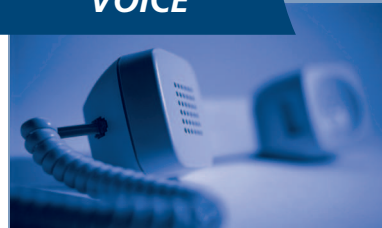

- (1) TFT KVM Tray;
- (1) Data cable VGA/DVI-D/USB/Keyboard/Mouse
(KVT137E-XX with PS/2 KM,
KVT137E-XX-U with USB KM connectors);
- (1) Power cord;
- (2) Telescope rails incl. fixing material for
19" rack mount depth from 600 to 900mm;
- (1) Cantilever beam for cable conduct
- (1) Manual
